

# Mohamed Khaled

Front-end Developer

Cairo, Egypt | +20 11 230 43854 | [mhmdkhaled092@gmail.com](mailto:mhmdkhaled092@gmail.com) | [LinkedIn](#) | [Portfolio](#)

## Professional Summary

Front-End Developer with 2+ years of experience building scalable and user-friendly web applications using React, Next.js, and Redux. Experienced in developing responsive interfaces, optimizing rendering performance, and writing clean, reusable code. Worked on production systems including medical ERP dashboards, e-commerce platforms, and real-time applications. Strong team collaborator with a focus on delivering solutions that align with business goals.

## Experience

### Atheel CX, Cairo, Egypt

April 2025 – Present

Front-End Developer

Frontend-focused developer responsible for building responsive and user-friendly web applications using modern technologies such as React.js and Next.js, with occasional backend contributions based on project needs.

- Developed and maintained high-quality frontend interfaces with a strong focus on usability, accessibility, and performance.
- Collaborated closely with designers and backend teams to ensure seamless integration and consistent user experience.
- Contributed to backend development tasks when required, including implementing CRUD operations and API integrations using Node.js and NestJS.
- Worked on multiple projects, including the company portfolio website and a real-time chat application (*Trio Chat*).

### SP Software House, Cairo, Egypt

October 2024 – April 2025

Front-End Developer

Frontend developer at a software house specializing in medical websites and ERP systems for hospitals and clinics.

- Owned the frontend development of medical ERP dashboards and a pharmacy e-commerce platform, focusing on scalable and maintainable UI architecture using React and Next.js.
- Collaborated cross-functionally with designers and backend developers to translate complex business and medical requirements into user-friendly interfaces.
- Built and maintained high-performance web applications by optimizing rendering behavior and introducing reusable components.

### OwlTech, Remote

September 2023 – August 2024

Front-End Developer

Developed and maintained responsive web applications using JavaScript and React.

- Developed OwlTech web app.
- Collaborated with designers and back-end developers to create cohesive and user-friendly interfaces.
- Participated in code reviews and contributed to team discussions, fostering collaboration.
- Worked with UI/UX designers and back-end teams to deliver seamless, accessible, and responsive healthcare solutions.
