

Mohamed Khaled

Senior Front-end Engineer

Cairo, Egypt | +20 11 230 43854 | mhmdkhaled092@gmail.com | [LinkedIn](#) | [Portfolio](#)

Professional Summary

Senior Front-End Engineer with 3+ years of experience building scalable, production-grade web applications using React and Next.js. Experienced in designing and developing complex products and business platforms, including a real-time live calls system for the Ministry of Health, a real-time customer communication platform, e-commerce applications, ERP and CRM systems, inventory management platforms, and analytics dashboards.

Experience

Atheel CX, Cairo, Egypt

April 2025 – Present

Senior Front-End Engineer

- Led the development of scalable, production-grade web applications using React, Next.js, Redux Toolkit, and Socket.IO.
- Designed and evolved front-end architecture for real-time systems, including a Ministry of Health live calls platform and a real-time customer communication platform.
- Developed and maintained complex business applications including CRM, ERP, inventory management, e-commerce, and analytics dashboards.
- Improved application performance, state management, and real-time data handling across high-frequency production systems.

Front-End Engineer

April 2025 – April 2026

- Built a real-time chat system with live messaging, queue management, media handling, and Socket.IO-based updates.
- Improved performance and state management for high-frequency real-time data flows.
- Collaborated with backend and UI/UX teams to deliver responsive and production-ready applications.

SP Software House, Cairo, Egypt

October 2024 – April 2025

Front-End Engineer

- Owned Front-End development of a pharmacy e-commerce platform with scalable UI architecture using Next.js.
- Designed reusable UI components for complex healthcare and business workflows.
- Optimized rendering performance and frontend architecture for better scalability and maintainability.

Owlteck, Remote

September 2023 – August 2024

Front-End Engineer

- Developed responsive web applications using React.js and JavaScript.
- Collaborated with designers and backend developers to build user-focused interfaces and reusable frontend components.
- • Participated in code reviews and frontend architecture discussions to improve code quality and maintainability.
